Definition

bring-in Germany *the warranty coverage may be extended to units delivered DDP to our Service Plant. If equipment is not registered with KACO new energy this exception is limited to units sent within 24 months from the date of shipment from KACO new energy to the Purchaser. In no case will the warranty exceed 30 months from this date even if properly registered with KACO new energy. This warranty will only maintain its validity providing that the valid country certificate is in existence upon occurrence of the service case.*

local partner *the warranty coverage may be extended to units delivered DDP to a local Service Plant*

local field service *the warranty coverage may be extended to units delivered DDP to a local Service Plant or by local field service technicians at customers site*

*** Overseas territories of the countries listed above are exceptions. For all other countries we offer a 2 year bring-in guarantee. In case of service or reparation the client has to handle the transport to KACO and cover all freight charges.

^c The warranty is only valid to the extent that valid national certificates are held when servicing is required.

*Registrations to extend the guarantee up to more than 2 years are not possible.

This supplement to the current warranty conditions is valid until new warranty conditions are released; thus it relates to inverters that were sold during the validity period of the warranty conditions, status as of 1st October 2013.
